Consulting Services

This service is available to our members and to others for listing professional positions and services available and wanted that relate to industrial arts education.

Rates effective July 1, 1976: 25 cents per word, minimum of 25 words (½ inch or $6.25 ad minimum).

All advertisements, cancellations and corrections should be received by the editor on or before the 15th of the second month preceding publication.

Assistant/Associate Professor of Industrial Education. Primary teaching responsibilities will be in the Energy and Power Technology area with emphasis on Diesel Engines. The assignment also involves instruction in Metals Technology and basic Electricity/Electronics. A Master's degree is required. A Doctorate is preferred. Submit a letter and resume to Dr. Eldon Divine, Chairman, Industrial Education Department, The School of the Ozarks, Point Lookout, Missouri 65726. An Equal Opportunity Employer.

New Faculty Position (Anticipated). Visiting Assistant Professor of Industrial Education (Position to be on an annual renewal basis). Starting Date: August 15, 1980. Duties: Teaching undergraduate courses in drafting and power technology. Teaching professional courses in industrial education. Advising undergraduate students. Serving on departmental, college, and university committees. Managing and maintaining power technology laboratory. Qualifications: Doctor's degree required with specialization in Industrial Education. Successful teaching experience in junior or senior high school industrial arts or vocational programs. Industrial experience desirable. The Department: The Department of Industrial Education offers a B.S. Degree and a Master of Industrial Education Degree each with three major options: Industrial Arts Education, Vocational-Technical Education, and Education for Industry. The Department has ten full-time faculty members and 160 majors. The teaching laboratories include Arts and Crafts, Drafting, Electricity/Electronics, Graphic Arts/Photography, General Metals, Machining, Power Technology, and Woodworking. The University: Clemson University, a land-grant University with approximately 11,500 students, is located in Northwest South Carolina near the foothills of the Blue Ridge Mountains and on the shores of Lake Hartwell. The town of Clemson, population approximately 10,000, is 18 miles Northwest of Anderson and 30 miles Southwest of Greenville. Application Period: Closes June 15, 1980 Applications: Interested candidates should make application and have their credentials sent to the Department Head: Dr. Alfred F. Newton, Head, Department of Industrial Education, 106 Freeman Hall, Clemson University, Clemson, South Carolina 29631. This is an equal opportunity/affirmative action employer.

Position Vacancy. Visiting Assistant Professor of Industrial Education This is a non-tenured one academic year interium position while existing faculty member is on educational leave. Starting Date: August 15, 1980. Ending Date: May 16, 1981. Duties: Teach undergraduate course in Electricity and Arts and Crafts. Advising undergraduate students. Serving on departmental and college committees. Managing and maintaining two laboratories. Qualifications: Must have a Master's Degree, Doctorate preferred, in Industrial Education. Successful teaching experience in junior or senior high school industrial arts program. Industrial experience in electricity desired. The Department: The Department of Industrial Education offers a B.S. Degree and a Master of Industrial Education Degree each with three major options: Industrial Arts Education, Vocational-Technical Education, and Education for Industry. The Department has ten full-time faculty members and 160 majors. MAN SOCIETY TECHNOLOGY
A Journal of the American Industrial Arts Association
Volume 39, 1979/1980

Each of the eight (8) 1980 issues of MAN SOCIETY TECHNOLOGY, Volume 39, is numbered chronologically according to month. (September/October is no. 1, November is No. 2 . . . through May/June, which is No. 8.)

When using the index note that the issue no. will preceed the page number of the information you are referring to, ie: No. 3 p6, 7 indicates material is in the December issue on pages 6 and 7.
